

Find your everyday fit.

PRINTABLE SIZING GUIDE / A4 / US REFERENCE SIZES

Check the scale first.

Print at 100% / Actual size. Turn off Fit to page and Shrink. Never measure from a screen.

PLACE A STANDARD CREDIT CARD HERE

The edges must match in both directions.

85.60 x 53.98 mm

Double-check with a ruler.

50 mm

If either check fails, reprint.

Cut. Wrap. Read.

Cut around the dashed outline. Keep the left START edge straight.

Wrap around your chosen finger, snug but not tight. The START edge overlaps the scale.

Read the mark at that edge. Check it can slide over your knuckle with slight resistance.

Between marks? Compare both sizes with a physical ring sizer before ordering.

Your size, at a glance.

US	INSIDE Ø mm	AROUND mm	US	INSIDE Ø mm	AROUND mm
4	14.9	46.8	9	19.0	59.7
5	15.7	49.3	10	19.8	62.2
6	16.5	51.8	11	20.6	64.7
7	17.3	54.3	12	21.4	67.2
8	18.1	56.9	13	22.2	69.7

A helpful estimate, not a guaranteed fit. Paper, printing and band width affect results.

Confirm with a jeweller. Reference sizes shown do not confirm Reeng stock availability.

A simple wrap. A clearer read.

HOW TO USE YOUR STRIP / ILLUSTRATIONS NOT TO SCALE

1. Wrap around the base of your finger.

Cut out the strip on page 1. Keep the printed scale facing out.

Bring the ends together.

Let the straight START edge overlap the numbered scale.

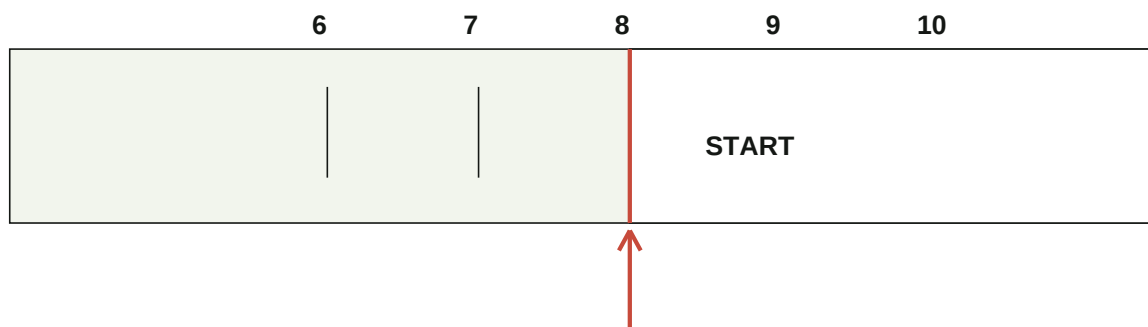

Snug, never tight.

Keep the paper flat.

Do not twist or squeeze.

2. Read exactly at the START edge.

Enlarged example: the edge lines up with 8, so the estimate is US 8.

Read at this edge

3. Check the knuckle, then repeat.

Hold the loop at that size and check it slides over your knuckle with slight resistance.

Between marks? Try both nearby sizes with a jeweller. Paper gives an estimate, not an exact fit.
